

Ajay Singla

Enthusiastic BCA student passionate about technology and innovation, with proficiency in software development and problem-solving. Committed to continuous learning and eager to explore business opportunities. Seeking challenging roles to apply my skills, contribute to impactful projects, and grow in the dynamic tech sector.

PROJECTS

COLLEGE EVENT MANAGEMENT PLATFORM

Jan 2024 - April 2024

- Developed a full-stack website for a college major project using HTML, CSS, and JavaScript for the frontend, with Firebase as the backend database.

SPOTIFY CLONE USING REACT

Feb 2024 - April 2024

- Built a Spotify clone using React, focusing solely on the frontend. Created a responsive and dynamic user interface with features like music playback, search functionality, and playlist management.

HOTSTAR CLONE IN BOOTCAMP BY AWS

March 2023

- In this bootcamp arranged by Devtown in collaboration in AWS Community Builders in which we worked on Hotstar Landing Page
